

Name : Khushal Agarwal

Section : A

RollNo. : 30

Experiment – 16

AIM : Write a Shell script to accept a filename as argument and displays the last modification time if the file exists and a suitable message if it doesn't.

ShellScript :

```
echo -n "Enter file name : "
```

```
read f1
```

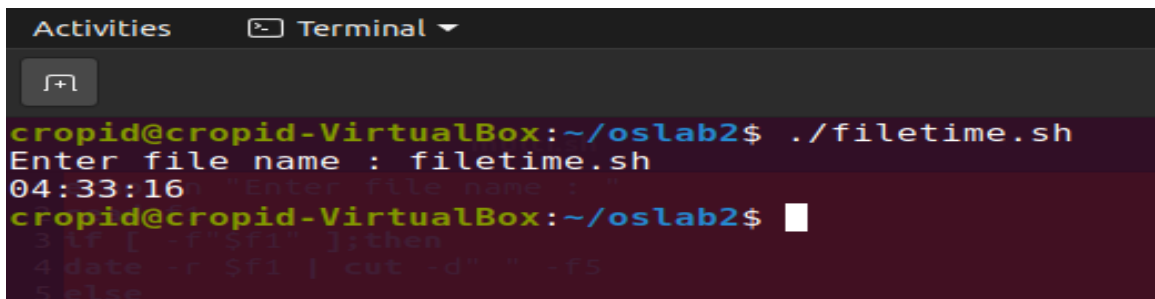

```
if [ -f"$f1" ];then
```

```
date -r $f1 | cut -d" " -f5
```

```
else
```

```
echo "File not exist"
```

```
fi
```

```
Activities Terminal
cropid@cropid-VirtualBox:~/oslab2$ ./filetime.sh
Enter file name : filetime.sh
04:33:16 "Enter file name : "
cropid@cropid-VirtualBox:~/oslab2$ 
3 if [ -f"$f1" ];then
4 date -r $f1 | cut -d" " -f5
5 else
```
