Name : Khushal Agarwal

Section : A

RollNo. : 30

Experiment – 13

AIM : Write a shell script that print factorial of a given number.

ShellScript :

echo -n "Enter positive integer : "

read n

f=1

while [$n -ne 1]

do

f=$(($f * $n))

n=$(($n - 1))

done

echo "Factorial : $f"

```
Activities        Terminal ▼

cropid@cropid-VirtualBox:~/oslab2$ ./fact.sh
Enter positive integer : 5
Factorial : 120
cropid@cropid-VirtualBox:~/oslab2$
```
